CONSULTING

Creating Value and P&L Impact

CORPORATE PRESENTATION

SUSTAINABILITY - FROM STRATEGY TO PRACTICE

ACTION ON-GROUND | CREATING VALUE AND P&L IMPACT

16 PEACE AND JUSTICE
STRONG INSTITUTIONS

20+ Years | 10+ Countries

YOUR SUSTAINABILITY PARTNER

- Born Environmental Engineer with 20+ years in Sustainability & EHS across FMCG, Cement, Automotive, Chemicals & Consulting
- B.E. (Environmental Engineering) + Master's in Sustainability – IIM Mumbai
- Spent most of my career on the **shop floor**, turning ESG ideas into results
- Strong knack for integrating ESG into business strategy
- Known for bringing all stakeholders on board
- Turned cultural diversity across continents into aligned action between leadership and on-ground teams

Focus: Real Change — From Strategy to Execution.

GSK

ACC

OUR VISION, MISSION & VALUES

To partner with businesses
in building future-ready,
responsible, and sustainable
organizations

Integrating ESG strategy with
on-ground solutions that
deliver measurable impact

Transparency
Innovation
Responsibility
Resilience

WHY ARE WE DIFFERENT?

We break down ESG complexity into clear priorities, roles, and results.

We Decode

We break down ESG complexity into simple, clear insights.

We Simplify

We turn jargon and frameworks into practical, actionable steps..

We Execute

We drive on-ground execution & measurable results..

WE OWN IT

We take responsibility for outcomes, not just advice.

OUR SUSTAINABILITY SERVICE PORTFOLIO

DESIGNED TO DELIVER OPERATIONAL, COMPLIANCE & P&L IMPACT

Environmental Stewardship & Resource Optimization

- Energy Efficiency
- Water Neutrality
- Waste Management
- Circularity
- Resource Efficiency
- Operations Baseline
- Life Cycle Assessment

Decarbonization & Climate Strategy

- GHG (Scope 1–3), ISO 14064
- Scope 3 Supplier Engagement
- Decarbonisation Roadmap, SBTi & Net Zero
- Carbon Credit Integrity & NbS
- Climate Risk Due Diligence
- EPD & PCF

Compliance, Reporting & Governance

- Double Materiality
- ESG Governance Frameworks , IFC
- BRSR, GRI, SASB
- CDP, S&P CSA, CBAM
- ESG Report & 3rd Party Assurance
- Health & Safety

Social Impact & Community Engagement

- Stakeholder Engagement
- IFC - ESG Due Diligence
- Responsible Sourcing
- Impact Assessment
- Workforce, Communities
- Social Enablement
- Sustainable Finance
- Green Building Certification

OUR SUSTAINABILITY SERVICE PORTFOLIO

DESIGNED TO DELIVER OPERATIONAL, COMPLIANCE & P&L IMPACT

OUR SUSTAINABILITY SERVICE PORTFOLIO

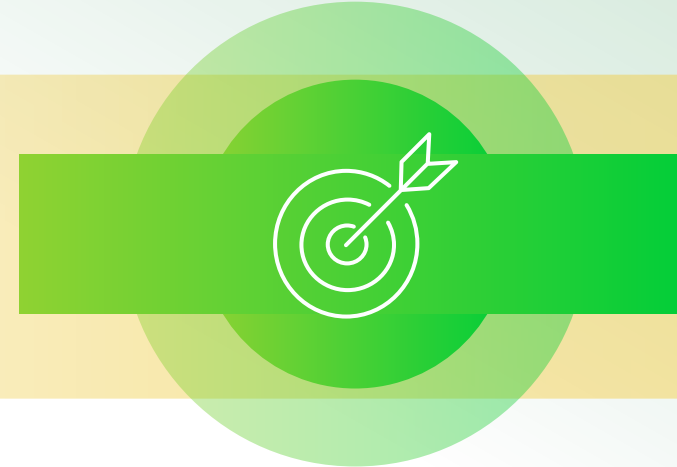

DESIGNED TO DELIVER OPERATIONAL, COMPLIANCE & P&L IMPACT

Carbon, Emissions & Climate Strategy

GHG Accounting

- Scope 1, 2 & 3 Accounting
- Emission Profile for GHG (BAU, Target Scenario)
- Hotspot Identification
- CBAM Calculation

Science-Based Targets (SBTi)

Integrate science-based targets into corporate strategy, enhancing ESG performance & securing stakeholder confidence.

Net Zero Roadmap

Accelerate your net zero transition with strategic frameworks & actionable plans, minimizing liabilities & gaining competitive advantage.

Carbon Reduction Investments

Optimising capital allocation to prioritise high-impact, cost-effective emission reduction opportunities & maximise sustainability ROI.

OUR SUSTAINABILITY SERVICE PORTFOLIO

DESIGNED TO DELIVER OPERATIONAL, COMPLIANCE & P&L IMPACT

ESG COMPLIANCE ASSESSMENT & OPTIMIZATION

BRSR COMPLIANCE ASSISTANCE

ISO 14064 IMPLEMENTATION

TECHNICAL SUPPORT FOR EXTERNAL DISCLOSURE (CDP, ECOVADIS & S&P)

SUSTAINABILITY ROADMAP

Turning Strategy into **On-Ground Results**

Action > Theory | On-Ground Execution | P&L Focus

Strategy | Execution | Reporting | Value Creation

Future-Forward Sustainability Consulting

SUSTAINABILITY PATH

SUSTAINABILITY ROADMAP

Turning Strategy into **On-Ground Results**

Phase 1

Phase 2

Phase 3

Strategy &
Prioritisation

- Baseline Setting
- Material Assessment
- Risk & Opportunity mapping

Execution &
Integration

- On-ground Implementation
- Ownership & KPIs
- Operational Improvements

Measurement &
Reporting

- Performance Tracking
- ESG Disclosures
- Business Value Creation

Action > Theory | On-Ground Execution | P&L Focus

PHASE 1: STRATEGY & PRIORITIZATION

CREATING STRONG ORGANISATIONAL ESG FOUNDATION

Strategic Foundation

Leadership Vision | Framework alignment (GRI, SDGs, BRSR, UNGC, etc.) | Gap Assessment & Benchmarking

Baseline Establishment & Prioritisation

Materiality Assessment | GHG Accounting (Scope 1–3) | Science-Based Targets Setting

ESG Transformation Design

ESG Strategy Creation | Initiative Prioritization | Supplier Prioritization | Scope 3 Deep Dive

Measurement & Value Creation

Decarbonisation Roadmap | Ratings & Performance | Compliance Documentation

Action > Theory | On-Ground Execution | P&L Focus

PHASE 2: EXECUTION & INTEGRATION

WHERE ESG STRATEGY BECOMES BUSINESS REALITY

PHASE 3: MEASUREMENT & REPORTING

TURNING ESG EXECUTION INTO VERIFIED, COMMUNICATED IMPACT

Placing accountability & credibility at the centre of ESG outcomes

OUTCOME

- Clear ownership & measurement of ESG performance & disclosures
- Continuous improvement through data-driven insights
- Transparent communication to stakeholders and regulators

Technology Enablement

Reporting & Disclosure

Ratings & Benchmarks

Continuous Improvement

Stakeholder Engagement

Third-Party Validation

External Accreditations

Local-Recognition

Disclose → Report → Enhance → Verify

Aligned with leading disclosure, rating & benchmarking platforms

KEY DIFFERENTIATORS IN CARBON MANAGEMENT

DESIGNED TO DELIVER OPERATIONAL, COMPLIANCE & P&L IMPACT

Climate Risk Assessment

We identify & mitigate climate-related risks, fostering robust adaptation & resilience strategies

Emission Profile Modeling

Strategic modeling drives targeted reductions and optimizes capital deployment for max impact.

Carbon Credit Monetization

We validate and manage carbon credits, generating new revenue streams and ensuring regulatory compliance.

Lifecycle Impact Assessment (LCA)

In-depth LCAs identify environmental hotspots and achieve significant cost efficiencies.

Internal Carbon Pricing

Implement internal carbon pricing to incentivize emissions reductions and drive operational efficiency.

Technology feasibility & CAPEX Optimization

Evaluate emerging technologies for emissions reduction, ensuring optimized capital expenditure & viable deployment.

Performance Tracking & Assurance

Monitor progress against goals, providing stakeholders transparent reporting and confidence.

CSR : STRATEGIC VALUE CREATOR

FROM COMPLIANCE TO PURPOSE LED IMPACT

Board Perspective : CSR is positioned as a strategic lever to strengthen our purpose, reputation, & long-term stakeholder trust.

What This Delivers to the Organisation

CSR aligned with corporate purpose & ESG priorities | Visible & measurable social impact outcomes | Strong governance, transparency & compliance | Credible outcomes suitable for board & public scrutiny

Our Operating Model

Purpose & Strategy Alignment | Disciplined Capital Allocation | On-Ground Execution | Verifiable impact metrics & performance tracking

Why This Matters at Board Level

Enhanced social licence to operate | Reduced CSR and reputational risk | Long-term societal & organisational value creation
