

RESPONSIBLE EVENT INITIATIVE

ON-GROUND GREEN EVENTS TRANSFORMATION PROGRAMME

*A Practical, Scalable Programme to enable
Responsible, Resource-Efficient Event*

All About Responsible Event Initiative

From ESG Intent to On-Ground Impact

All About Responsible Event Initiative

Key Action Areas for On-Ground Impact

All About Responsible Event Initiative

Practical Steps to Enable Responsible Events

- **Culture Visibility** : Integrate local artists, crafts & cultural performances in events
- **Local Employment**: Engage local vendors, artisans & service providers across event supply chains.

- **Green Energy** : Solar installation, renewable PPAs, & energy efficient lighting.
- **Water Neutrality** : Rainwater harvesting & ZLD-based reuse systems.
- **Carbon Offsets** : Verified carbon credit programmes
- **Zero Plastic** : Eliminate single-use plastics
- **Waste Circularity** : Segregation, food waste reduction, recycling & composting.

Benefits of Responsible Event Initiative

Practical value for venues, guests, and the environment

Eco-Friendly

Starting a New Phase of Life with Love, Commitment & Environmental Responsibility

Waste Reduction

Resource Conservation

Water & Energy Savings

Positive Image

Reduced Carbon Footprint  **CO₂**

RESPONSIBLE CELEBRATION... LEAVES A LASTING IMPACT

How We Enable Responsible Events

End-to-end Support for Sustainable Event Planning & Execution

 **Plan Eco-Friendly Weddings**

 **Water, Carbon & Plastic Offset**

 **Expert Zero Waste Management**

 **Green Energy Solutions**

 **Plant Trees, Support Farmers**

End to End Sustainable Wedding Services

Behind the Lens

NM

Nilesh Mehta

- A sustainability leader with over 20 years of cross-sectoral experience, driving ESG transformation across FMCG, cement, pharma, automotive, and consulting sectors in 10+ countries.
- Formerly the Regional Sustainability Head (DvM) at Reckitt, steering ESG strategy and execution across Asia, Africa, and the Middle East.
- Passionate about connecting boardroom ambition with real-world execution, enabling organizations to embed sustainability into their core operations.
- Bringing in experience to integrate Sustainability within overall Business Strategy –with a strong grasp of evolving global trends.

25 Years. 4 Continents.

Engineering Roots, Global Sustainability Impact.

Translating Strategies to On-ground Reality

- ESG & Sustainability Consultant with deep, hands-on involvement across multiple implementation projects spanning manufacturing, FMCG, metals, automotive & multiple other sectors. Translating complex ESG frameworks into practical, business-ready strategies – equipping teams and stakeholders through applied, industry-specific knowledge-sharing sessions. My experience reflects a strong alignment between ESG vision and on-ground execution.

Core Expertise

- ESG Strategy Development & Risk Advisory
- Sustainability Reporting (GRI, BRSR, TCFD, CDP)
- Scope 1/2/3 Emissions Accounting | GHG Protocol | SBTi
- Regulatory Compliance (EPR, CBAM, SDG Alignment)
- ESG Materiality Mapping & Roadmap Creation
- Knowledge Sessions | Framework Simplification | Team Enablement

Execution Snapshot

- Delivered multiple ESG engagements across high-impact industries.
- Designed 5-year ESG roadmap for a multisite site manufacturing industry player.
- Enabled significant boost in DJSI CSA climate score via climate governance integration for major FMCG Brand.
- Developed Water neutrality and Scope 3 decarbonisation frameworks for key manufacturing sectors.
- Supported full-cycle EPR regulatory compliance for metals recycling industry.
